ШТА ЈЕ КАХОУТ?

Kahoot је један од најбољих интерактивних дигиталних алата који су намењени за израду квизова, дискусија и упитника. Овај алат омогућава мотивисање ученика, такмичење међу вршњацима и тимско учење. Kahoot користи елементе учења игром у реалном времену.

The screenshot shows the Kahoot! quiz editor interface. At the top, there's a header with the Kahoot! logo, a title input field, and buttons for Settings, Upgrade, Themes, Preview, Exit, and Save. The main area displays a quiz question: "Најбољи српски спортиста је" (The best Serbian athlete is). Below the question is an image of two men in red jerseys, one applying something to the other's face. Below the image are four answer options in colored boxes: Митровић (red), Влаховић (blue), Богдановић (yellow), and Ђоковић (green). The Ђоковић option is marked as correct with a checkmark. A red arrow on the left points to the "Add question" button with the text "Ново питање" (New question). On the right, there are settings for the question type (Quiz), time limit (20 seconds), points (Standard), and answer options (Single select). There is also an "Image reveal" section with options for Original, 3x3, 5x5, and 8x8. At the bottom right, there are "Delete" and "Duplicate" buttons.
